Profile Summary

I'm a UI/UX Designer specializing in user-centered digital experiences. Skilled in UX research, user flows, wireframing, and prototyping to solve real user problems. Proficient in Figma for creating high-fidelity UI's and interactive prototypes. Passionate about blending design with storytelling and continuously refining my craft.

Skills

- Core skills:- UX Research, Wireframing, User Flows, UI Design, Prototyping
- Design Tools:- Figma, Adobe Photoshop, Adobe Illustrator, Canva, Miro
- AI Tools:- Chatgpt, Perplexity, Stitch, Gemini.

Professional Experience

UI/UX Intern

(15/12/2025 - 15/04/2026)

Plum Stays | Remote

- Created UI screens and layouts, for web, tablet and app versions with modern design standards and brand aesthetics.
- Developed wireframes and high-fidelity prototypes to visualize user flows and application structure with team to refine outputs.

Administrative Assistant

(03/04/2024-30/08/2025)

Elegant Interior | Kasba, West Bengal

- Managed scheduling, documentation, and cross-team communication, improving workflow efficiency and coordination.
- Coordinated communication across teams and external stakeholders

Freelance 3D Designer | Self-Employed

(2022-24)

- Delivered multiple client projects end-to-end, managing timelines, revisions, and final outputs independently.
- Collaborated with developers to integrate visual assets into production, ensuring quality and timely delivery.

Project Experience (UI/UX Case Studies)

- **Curiva - Telemedicine & Healthcare App** :- Designed a user-centered telemedicine app improving doctor discovery, booking, and remote consultations through intuitive UX flows.
- **Travelkit - Website Landing Page**:- Created a clean, conversion-focused travel landing page with smart trip planning features and an interactive prototype.
- **NexBank - Mobile Banking App**:- Designed a low cognitive load mobile banking app with streamlined navigation and intuitive financial user journeys.
